

A scatter plot showing the distribution of data points for two classes: 'Alert' (blue circles) and 'Not Alert' (red circles). The x-axis ranges from -3 to 3, and the y-axis ranges from -3 to 3. The 'Alert' points are more concentrated in the central region, while 'Not Alert' points are more spread out, particularly along the x-axis. A legend in the top right corner identifies the two classes.
